### A significant event in your life.

When I was fifteen years old, my family and I went to visit Apamea. It was only a short visit but I will remember it forever. Apamea is an ancient city on the bank of the Orontes River. The ruins of the city tell the visitors about the different civilisations which the city had witnessed through history. We arrived on Tuesday evening and the first thing we did was set up our camp. The next day we visited the ruins of the Roman city and climbed up the hill to the citadel there. The views from the top were incredible especially at the sunset. It was a fascinating and interesting visit. I'll never forget it because I have decided to study history at the university.
